1. Preliminaries

The Board of Directors is a collegial body which collectively represents all shareholders and acts in all circumstances in the interest of ESI Group.

ESI Group Board of Directors has established internal rules reflecting its operating rules, its composition, its duties and the means provided, with the aim of improving working methods and information of its members. It establishes the ethical rules, obligations and rights that are imposed on its members, as well as its relations with the Committees and the Management (the “**Internal Rules**”)

These Internal Rules were adopted by the Board of Directors during its meeting on 26th of November 2009 and were last updated on June 10th, 2021 in order to be part of the continuity of a management transition of the company in the framework of the most recent rules guaranteeing the compliance with the fundamental principles of corporate governance. They specify the roles and powers of the Board and Observers in line with and in addition to the articles of association.

These Internal Rules apply to all members of the Board of Directors and to the Observers. They must be communicated and signed before taking office to any candidate for the office of Director or Observer as well as to any permanent representative of a legal person.

2. Composition, Organization and Functioning

2.1. Composition

The composition of the Board of Directors complies with the provisions set out in the Articles of association.

2.2. Independent Directors

The Director is deemed independent when he does not directly or indirectly maintain any relationship of any kind that could compromise the exercise of his freedom of judgment. The assessment of the independence of a Director is the responsibility of the Board of Directors, which deliberates on the proposal of the Nomination and Governance Committee.

Determining the independence of Directors is the responsibility of the Board to deliberate on the proposal of the Nomination and Governance Committee.

The examination of the situation of each Director and criteria are discussed and made public.

Qualified independent directors may meet on their own initiative. They may meet the main directors of the Group outside the presence of corporate officers, subject to prior request to the Chairman of the Board of Directors who will bring it to the attention of corporate officers.

2.3. Observers

The Board of Directors may appoint one or more Observers, individuals or legal entities, who may be shareholders or non-shareholders. The position of Observer may also be a means of integrating a candidate, before proposing his or her appointment as Director, or of ensuring a transition by appointing as Observer a Director whose term has expired.

2.4. Meetings of the Board of Directors

2.4.1. Chairmanship

The chairman shall preside over all meetings of the Board, directs the debates and implements the present internal rules. He ensures the quality of exchanges and collective decision-making. In case of impediment he is replaced according to the statutory provisions.

2.4.2. Frequency of meetings

The Board of Directors meets at least four times a year and in accordance with the conditions laid down in the articles of association.

2.4.3. Convocation

In addition to the articles of association, it is specified that a schedule of meetings for each year is sent to the Directors and to the Observers no later than 15th December of the previous year. Meetings are convened by letter, e-mail, fax or even verbally. The notifications addressed to the Directors and the Observers are sent by the Secretary of the Board.

In any event, the Board of Directors may, at each of its meetings, deliberate on matters not put on the agenda that have been communicated to the Chairman by two or more other Directors.

2.4.4. Quorum and majority

The Board may not validly deliberate unless half of the Directors are present or deemed present (see 2.3.5 hereafter) without taking into account represented members.

The deliberations and decisions of the Board are taken by majority vote of the members present, deemed present or represented at the time of voting. In case of equality of vote, the Chairman shall have a casting vote.

A member of the Board of Directors may give a written mandate to another member of the Board to represent him at a meeting.

2.4.5. Means of video-conference and telecommunication

Meetings of the Board may be held entirely by video-conference or other mean of telecommunication. The Chairman ensures that these means are made available to Directors and Observers who are unable to be physically present to a meeting of the Board to enable them to participate effectively in the said Board meeting.

Directors participating in the meeting by video-conference or other means of telecommunication are deemed present for the calculation of quorum and majority.

The register of attendance of the meeting of the Board shall mention, where appropriate, the participation by video-conference or other means of telecommunication by the concerned Directors or Observers.

The minutes of meeting of the Board of Directors shall include the names of the Directors and the Observers participating in the meeting by video- conference or other means of telecommunication. They shall also report the occurrence of eventual technical problems related to a video-conference or other means of telecommunication, including interruption and recovery of the remote working/participation.

In case of dysfunctioning of the video-conferencing system or other means of telecommunication system recorded by the Chairman of the meeting, the Board of Directors may validly deliberate/be held only with members physically present when the quorum majority is met.

The foregoing provisions shall not apply to the adoption of decisions referred to in Articles L 232-1 and L 233-16 of the commercial code related to the establishment of annual accounts and management report of the Group.

2.5. Role of the Board Secretary

According to the Articles of Association, the Board of Directors appoints the Secretary who can be a non-member of the Board. The Secretary of the Board shall proceed to convene meetings of the Board on behalf of the Chairman and prepare draft minutes of Board meetings that are subject to approval of the Board.

He is in charge of sending the working documents to the Directors and the Observers and shall remain available for any inquiry regarding their rights and obligations, the operation of the Board or the Company.

The Board Secretary is also Secretary of the Audit Committee, Strategic Committee, Compensation Committee, Nomination and Governance Committee and Marketing and Technology Committee with the possibility to delegate this responsibility.

The Board Secretary is authorized to issue and certify copies or extracts of minutes.

2.6. Board Member Information

All documents relating to meetings of the Board and Committees (presentations, notes and minutes in particular) are sent to all Directors and the Observers except in urgent cases, within a reasonable time before the date of the meeting.

The Board of Directors carries out the controls and verifications it deems appropriate. All the necessary documentation and information is provided to the Directors and the Observers for the performance of their duties. Unless the confidentiality or physical obstacles make it impossible, a record related to items on the agenda requiring a preliminary study is addressed to Directors and Observers in a timely manner prior to meetings.

At each meeting of the Board of Directors, the Chief Executive Officer informs its members and Observers of the main facts and significant events relating to the daily business of the Group that have occurred since the date of the previous Board meeting. In addition, the Chief Executive Officer informs the Board of Directors and the Observers on a regular basis and at least once every six months of the Company's financial position, cash position and commitments.

In addition, Directors and Observers are kept regularly informed between meetings of all events or transactions that are significant to the Group's life. As such, they are provided with all the financial press releases issued by the Company.

2.7. Minutes of Meetings

The minutes of meeting are prepared in accordance with conditions set out in Articles of Association.

The draft minutes of each meeting shall be sent to the Directors and the Observers at the same time as the notification of the next meeting. The minutes are approved at the next meeting.

2.8. Compensation of members of the Board of Directors

2.8.1. Procedure for allocation of compensation for participation to the Board

Directors are granted a compensation for their participation to the Board. The allocation of the compensation for the participation to the Board, the total annual amount of which is determined by the general meeting, is subject to an annual decision of the Board of Directors.

Observers may also be granted a compensation for their participation to the Board.

The compensation of the executive directors is fixed and based on the level of responsibility within the company. The executive directors do not receive any additional compensation for their participation in the Committees.

The compensation of the independent directors and Observers takes into account their actual attendance at meetings of the Board and their participation in Committees. The Chairman of each Committee receives an additional fee.

Allocation of compensation for directors (per year, in €) for a 100% attendance at Board and Committee meetings:

	Board of Directors	Retreat	Committee membership	Committee chairmanship	Board chairmanship	Specific mission*
Independent director	2,500	2,500	4,000	5,000	100,000	On a case by case basis, depending on the nature and importance of the mission

These trainings are organized by the Company and are the sole responsibility of the Company.

2.12. Availability of computer equipment

In order to enable the Directors and the Observers to fulfill their missions, they can be provided, upon request and for the duration of their term, with a laptop whose use and restitution are detailed below.

Any request for computer equipment should be made to the Secretary of the Board who then provides the equipment against receipt.

Given the sensitive nature of the information provided to the Directors and the Observers for the performance of their duties, computer equipment that is made available should be a tool primarily dedicated to the work of the Board. To this end, proper technical precautions shall be taken in connection with the IT department of the Group, to preserve the confidentiality of the Group's information.

At the end of their term and after the last meeting of the Board attended by the Directors and the Observers, they must return the computer equipment to the Secretary of the Board.

The Board ensures that the conditions for dialogue between the officers, the Directors, the Observers and the shareholders are met with, for example, an organization of the general meeting which makes it generally accessible to all. At the end of the general meeting, the board considers the result of the votes. In capital-controlled companies, it pays particular attention to negative votes by looking, among other things, at how the majority of the minority voted and learns from it before the next general meeting.

In addition to legal provisions, article 3.3 below describes the management operations subject to the prior authorization of the Board of Directors.
